

**Computer sciences and applications, serving Mankind.**

## Introduction

UTT's ISI (Informatics and Information Systems) training program offers courses from different disciplines (Computer Science, Informatics, Management, Humanities and Social Sciences) in order to train professionals able to accompany organizations in the design of new systems, products or services. Students graduating in ISI master the analytic posture needed to identify and analyze work practices, methods to design technologies, systems and services, and methods to evaluate the impact of the use of these results on people, their organization, the society, and the environment.

## UTT-ISI offers 3 specialties

- **Valorization of data and knowledge (VDC):** develops the skills that allow to move from raw data to actionable information while developing a critical thinking skills at the techniques used;
- **Innovation through Software Design (ISD):** trains students to the design and implementation of software projects in teams, from proof of concept to the industrialization of software production;
- **Supporting the Digital Transformation (SDT)** treats the Information System as a tool for transformation, how it can add value to most of the organization's activities through automation, coordination, and visualization.

## Numerous professional opportunities

- Digital Transformation Consultant
- Information System Consultant
- Business Intelligence Consultant;
- Chief Digital Officer
- Project Owner
- Software QA engineer
- Software Project Leader

## and a variety of sectors

- EDP Service and engineering companies (SSII)
- Software engineering and edition
- Industries: aeronautics, automobile, defence, health...
- Banks and Financial services
- Innovating start-ups and young companies

## Audience

### Prerequisites for enrolment

- Bac
- Bac +1
- Bac +2

### Internship(s)

Yes, Compulsory

### Rhythm

- Full time
- With blocked release periods
  - Contrat de professionnalisation

## Information

Université de Technologie de  
Troyes  
Service des admissions et de la vie  
étudiante  
12 rue Marie Curie, CS 42060  
10004 Troyes cedex

## What's next ?

### Level of education obtained after completion

#### Level of education obtained after completion

- Bac +5

### Further studies

- Phd studies

# Program

## Generic courses

- Analysis of organizations and their needs
- Business Process Modeling
- Information systems architecture
- Analysis and management of data and knowledge
- Security of information systems
- Interaction design and human-machine interface design
- Service-Centered Design
- Iterative design methods
- Software project management
