

## ACCOMMODATION

The international center of the UTT can help you to book accommodation **only for the students coming from partner universities** who are admitted to UTT.

UTT have an online platform (**LivinFrance**) dedicated to practical organization in order to help you for your arrival in Troyes.

To do so, students have to follow the procedure on the online application portal: students **MUST** read thoroughly and **MUST** agree with the “booking conditions” (You have to accept that UTT forwards your name/first name/email as provided in your application form to "Livinfrance" so that they can send you an account to access the services on the online platform). <https://livin-france.com>

Since UTT is subscribing and paying for this platform, UTT accommodation partners are available on the platform. If you requested help from UTT to find accommodation in your application form, you must use the platform.
