*Information and advice for winter/summer school*

## ○ The University of Technology of Troyes

*The UTT is a public institution that depends directly on the French Ministry of Higher Education, Research and Technology. It has the advantage to combine all the assets of the engineering “Grandes Ecoles” and those of universities. It develops simultaneously and coherently three missions: education, research and transfer of technology. The campus is located next to a sports complex, at the heart of the “Technopole de l’Aube en Champagne”, less than five kilometres from the city center.*
